

KADAMBALA VENU GOPALA RAO

Bangalore, India | +91 7093533020 | kadambalavenu0307@gmail.com | [Linkedin](#)

Data Analyst with 3.6+ years of experience delivering data-driven insights across business intelligence, reporting, and analytics in enterprise environments. Strong expertise in SQL, Power BI, Tableau, Alteryx, Excel, and Python to analyze large datasets, automate data workflows, define business metrics, and build scalable dashboards that support strategic decision-making. Proven ability to mentor junior analysts, collaborate with business, product, and engineering teams to improve data accuracy, streamline reporting processes, and translate complex data into clear, actionable insights for senior stakeholders.

TECHNICAL SKILLS

- **Languages:** SQL, DAX, Python, PL/SQL
- **Database & Data Warehousing:** SQL Server, MySQL, Snowflake, Amazon Redshift, Toad
- **Data Visualization & BI:** Power BI (Desktop & Service), Tableau, Advanced Excel, Alteryx
- **Analytics & Reporting:** Data Analysis, Data Modeling, Data Cleansing, Dashboarding, MIS & Business Reporting

WORK EXPERIENCE

Senior Analyst – BI & Visualization | LatentView Analytics, Bengaluru

May 2026 – Present

- Spearheaded customer analytics initiatives by mining large-scale transactional and behavioral datasets across 5+ client accounts, uncovering high-impact patterns, segment trends, and actionable growth opportunities that directly influenced business strategy.
- Engineered 15+ advanced Tableau dashboards and Power BI solutions focused on customer lifecycle analytics — tracking acquisition funnels, retention curves, churn indicators, and revenue attribution across 4+ business verticals.
- Translated raw customer data into strategic narratives by developing predictive trend models and cohort analyses, reducing client reporting cycle time by 35% and directly influencing go-to-market decisions and resource allocation strategies.
- Drove end-to-end analytical engagements — from stakeholder discovery and KPI definition through data modeling, visualization delivery, and executive-level presentation — across concurrent client accounts.
- Mentored a team of 4 junior analysts on advanced data storytelling, DAX optimization, visualization design principles, and analytical problem-solving frameworks, improving overall team delivery speed by 25%.
- Designed and implemented robust data models on Snowflake, structuring dimensional schemas and optimizing query performance by 40%, supporting high-volume analytical workloads and cross-functional reporting pipelines.
- Established and evangelized Centre of Excellence standards by building reusable analytical frameworks, standardized metric libraries, and scalable reporting templates adopted as benchmarks across global client engagements.

Technologies: Tableau, Power BI Desktop, Power BI Service, DAX, SQL, Python, Snowflake, Alteryx, Power Query

Business Intelligence Analyst | Empower Global Business Services, Bengaluru

Oct 2025 – Apr 2026

- Built and maintained 20+ automated business and management reporting solutions using SQL, Power BI, and Alteryx, enabling 50+ stakeholders to track KPIs and monitor business performance in real time.
- Designed 10+ end-to-end data workflows in Alteryx for data extraction, cleansing, validation, and transformation, reducing manual effort by 60% and improving reporting turnaround time by 3 days.
- Developed and optimized complex SQL queries (joins, aggregations, CTEs) across SQL Server and Amazon Redshift to support analytical and reporting needs.
- Collaborated with business, product, and data teams to gather requirements, define metrics, and ensure consistency and accuracy of data across reports and dashboards.
- Performed data reconciliation and quality checks across 8+ data sources, reducing reporting discrepancies by 45% and ensuring trusted, audit-ready data for senior decision-makers.
- Enhanced existing dashboards and reports by automating repetitive processes and improving performance, scalability, and usability for recurring business use cases.
- Presented insights through clear, intuitive dashboards and structured reports, translating complex data into actionable recommendations for senior stakeholders.

Technologies: Power BI Desktop, Power BI Service, Power Query, SQL Server, DAX, Advanced Excel, Alteryx

Data Analyst | *Accenture, Bengaluru*

Dec 2022 – Oct 2025

- Delivered 30+ client-facing analytical and reporting solutions using SQL, PL/SQL, Snowflake, and Toad, supporting operational and management reporting requirements across 6+ large-scale enterprise projects.
- Developed and maintained 25+ Power BI dashboards and Excel-based reports, creating DAX measures and structured data models to track KPIs, trends, and performance metrics for 100+ business stakeholders.
- Utilized Python for data preparation, validation, and ad-hoc analysis to support reporting accuracy and business analysis needs across project deliverables.
- Ensured data quality and consistency through cleansing, reconciliation, and validation across multiple data sources, collaborating with stakeholders to resolve data issues and change requests.
- Coordinated 10+ deployment activities by preparing production scripts and validating environmental readiness, achieving a 98% post-deployment success rate with zero critical rollback incidents.

Technologies: *SQL, PL/SQL, Python, Toad, Snowflake, Power BI, Advanced Excel*

EDUCATION

Master of Business Administration – Information Technology Management

Jan 2024 – Dec 2025

Jain University, Bengaluru

Bachelor of Engineering in Computer Science

Jul 2018 – May 2022

Bharath University, Chennai

CERTIFICATIONS & ACHIEVEMENTS

- Databricks Certified Data Analyst Associate
- Tableau Desktop Certified Associate
- Microsoft Certified: Power BI Data Analyst Associate
- Microsoft Certified: Azure Fundamentals (AZ-900)
- Star Performer Award – Accenture, for exceptional contributions to project success and consistently delivering quality integration solutions
